

# HELP

Your overwhelming desire to reduce waste of building materials has been tremendous, thank you! But, WE ARE FULL. We do not receive any subsidy to operate, and need you to meet us half way by bringing us CLEAN MATERIALS that are not in oversupply, see below. Please call ahead before bringing in any item not discussed beforehand in the past 30 days. Please keep this note as a reference. We value your business and need your help if we are to continue as a self-sufficient organization:

## Absolutely not taken in:

- Dirty materials
- Windows over 20 years old, (except multi-division)
- Windows transported to us in a flat position
- Unassembled materials – please do not take apart windows or toilets especially
- As always, we do not take in un-bagged fiberglass materials, or loose glass.
- Any material that is not in reusable “As Is” condition. We do not do any repairs or reassembly.
- Household items, upholstered furniture
- Office partitions
- Any item in oversupply

Thank you for your support. Call **231-276-6330** with questions and before bringing in materials. [www.odomreuse.com](http://www.odomreuse.com) for more info.
